

9th Grade Field Trip – George Bush Library & Museum

On Wednesday, January 14, the ninth-grade class enjoyed an educational and memorable field trip to College Station, accompanied by Mrs. Westbrook, Coach Waldrop, and several parent chaperones. The group visited the George H.W. Bush Presidential Library and Museum, where students had the opportunity to learn more about leadership, service, and American history.

The visit began with a 20-minute introductory video in the museum's theater, highlighting the life, character, and public service of President George H. W. Bush. Students were attentive and engaged as they learned about his journey, values, and dedication to serving others—principles that align closely with our school's mission.

Following the video, students toured the museum exhibits, beginning with the president's armored limousine and continuing through a chronological timeline of his life and presidency. Highlights included the replica Oval Office, the Situation Room, and Camp David. One of the most memorable moments of the trip was when students gathered around the Situation Room table to role-play a presidential decision-making scenario, giving them a hands-on perspective of leadership and responsibility.

After exploring the museum, students walked the beautiful grounds and paid their respects at the gravesite of President and Mrs. Bush. They also viewed the presidential train and Marine One helicopter before departing.

After more than two hours of learning, the group enjoyed lunch and fellowship at Wings N More. The day concluded with a special stop at Tiff's Treats to celebrate Brooklyn Logan's birthday, making the trip both educational and joyful.
